### **Music from America in „Schäfers Hof“**

This time a concert of a different style was offered to about 40 guests in the small, historical event hall in Osterwiecker. The special guest of the evening was the American musician Rick Derman. In his three hour solo concert he presented a huge variety of catchy, classic rock, pop and blues songs from the past decades. The concert took place on the occasion of the German-American culture days in Sachsen-Anhalt. The American artist, who lives in Berlin for about three years now, usually plays in a band.
