

Had Enough

I've tried to leave you for so long
I look at you and feel the magic's gone
Bees been buzzin in the hive
And blues been jammin at the dive

Chorus

Had enough, had enough
I've had enough of your love
It's also rough, it's also rough
So had to kick your love

I been feelin hunger feelin thirst
Like a desert rat tryin to shake a curse
You pull my strings like a marionette
And its always blues that I get

Repeat Chorus

I spent some time on the soft machine
Lost my head, like in a dream
But now I see the Carnival of Lights
A lovely lady waits for me tonight
