

Riding A Feeling

In n' outta love, searching for inspiration but I...
Can't live without love, frozen in isolation
One day the heavens smiled, And now you drive me wild

Chorus:

I'm riding a feeling, and it keeps me on my toes
My senses reeling, when you touch me I lose control

Ruin' out of luck, in and out of time
Can an empty heart, protect a worried mind?
And now it feels so right, think you could change my life

Repeat Chorus

Riding this feeling wherever it goes
Somehow inside your heart you know
What's best for me

Repeat Chorus
