

Eileen

You came along such an expression With eyes like no other girl
But how do I make your connection Say yes and I'll move the world

Chorus:

Eileen... I've got my eyes upon you
Eileen... is that a rainbow 'round you?

You said you'd come and take me away I don't think you really meant it
'Cause I don't have what you need And the time I've already spent it
Eileen... I've got my eyes upon you
Eileen... is that a rainbow 'round you?

Well an angel came down on my cigarette And stayed there for one night
Disappeared before the morning And girl you're so hard to find

Eileen... I've got my eyes upon you
Eileen... is that a rainbow 'round you?
Eileen... I've got my eyes upon you
Eileen... I'll build my world around you

Well I think you can make me stay
Well I think you can show me the way

Derman/Ballard
