

All Alone

I'm waiting for a song
To come to me in a dream
Something to explode me outta this scene
All dressed in black, is how I wanna be
Like the man from Memphis, Tennessee

Love slipped thru my fingers
Like sunlight of blue and gold
I need to come in from the cold

Chorus:

All alone (out on a frozen sea)
All alone (you gave your love to me)
All alone (but it was just a loan)
All alone (more like a stepping stone)

Can you remember, when you were just a child
Everything was colors runnin' wild
But now that you are grown, so easy to forget
You dance thru your days like a marionette

Angel of mercy
Your words come into my mind
Please try and teach me to be kind

Repeat Chorus
