

India

The sun is hot and the days are long
You should go home but you just hang on
'Cause something calls you from just beyond
And knowledge wears strange faces

You pass thru the market just after dawn
Out of the casbah a haunting song
Tells of sorrow, a love gone wrong
The melody cuts thru your heart

Chorus

India, listen to her song
I'm goin' there and it won't be long
I feel you true in the morning light
Will you take me too in my dreams tonight?

Rubies and tigers, beggars and thieves
A sea of faces that fill your dreams
You're feeling so lonely that you wanna scream
'Cause it's love for gold you've traded

Repeat Chorus
