

Operater

I know the reason you talk behind my back
I used to hand around your house
And I know how you like your pleasure
Until you went and put me out

Chorus:

You're a smooth operater
Can't keep me away
Guess I'll see you later
That's the price that I gotta pay

Reefer madness won't leave me alone
I can't stay off of the phone
There's a power failure to my head
And I can't make it on my own

Repeat chorus

Music & Lyrics by Rick Derman
