

## Law And Order

Please give us law and order  
Oh won't you hear  
You've got to stop this slaughter  
Deliver us from fear

Can't you see  
It's always been you and me,  
You never had no rival  
You're my fantasy

### Chorus

I don't feel no pain                      When my bullets reign  
With my gun in my tripod      I feel just like God

Please give us law and order  
Oh won't you hear  
Oh please protect our daughters  
Deliver them from fear

Can't you see  
That love will set us free  
I read it here in the Bible  
Now I'm losing my sanity

Repeat chorus

Music & Lyrics by Rick Derman

*This song was inspired by the infamous Beltway Sniper attacks of Oct. 2002. The verse is sung by the (frightened) public at large. The bridge and chorus are sung by the shooter.*
