

Pipe Dreams

I had a pipe dream yesterday
My hair was green and I was rockin' away
You and me we had a band on the run
We drove our van right into the sun

Pipe dreams, you know what I mean
Makin' the scene as a rock n roll star
Pipe dreams, you know what I mean
You won't get far with a teenage queen

Here we are out on the line
Kick out the jams, one more time
Groupies tearin' off all of my clothes
When you're the man, that's the way it goes

Pipe dreams, you know what I mean
Makin' the scene as a rock n roll star
Pipe dreams, you know what I mean
You won't get far with a teenage queen
