

Psychotic Reaction

When you get up, you're already stoned
Then you go down, but always alone

You look in the sky and you pray for rain
The noise in your head just drives you insane
You go to the stash box and mix it all up
And take a drink from the bitter cup

Psychotic reaction, in a bitter cup 3x

You're up all night, but your work's down the drain
Cause social distortion, is giving you pain

You look in the sky and you pray for rain
The noise in your head just drives you insane
You go to the stash box and mix it all up
And take a drink from the bitter cup

Psychotic reaction, in a bitter cup 3x

Derman/Ballard
