

Robot Love

You been watchin' the tube too long
Ah, your mind is almost gone
I can't dig the way you walk
I can't stand the way you talk

Chorus:

I don't want your robot love
I don't need your robot love

Well it's getting so hard to relate
Ah, to just a mechanical face
Well you're movin' just like a machine
And you're hustlin' round in a dream

And you're takin' it easy
You're takin it easy (all right)

You nine to five it every day
Hustlin' scratchin' for your pay
You're just part of that rude machine
I'd rather let it go it seems

Repeat Chorus

Derman/Ballard/Kratsas
