

## Fool For Love

Went to a nightclub just the other night  
The band they were rockin' till the early morning light  
She was just 17 with a sweater kind of tight  
She had a face like an angel and she turned on all my lights

Well I'm a fool for love, break all the rules for love  
Goin' back to school for love, baby I'm a fool for love

We started talkin', things were goin' fine  
The way here eyes sparkled were like diamonds in the mine  
She said she had to leave, and sauntered 'cross the floor  
When I asked for her number, a friend just pulled her thru the door

Repeat Chorus

Some men live for women, others live for wine  
Some they make them deals, in their eyes are dollar signs  
I just live for one thing, it comes from up above  
To hear them bell ringin' and know that I'm in love

Well I'm a fool for love, break all the rules for love  
Goin' back to school for love, baby I'm a fool for love

Well I'm a fool for love, I'll blow my cool for love  
Jump in the pool for love, baby I'm a fool for love
