

Just Like You

All of my life, I always wanted someone just like you

When you walked on by, a face in the crowd
Your eyes were dancin', my heart's cryin' out loud
Something about you that said to me
I could stop runnin', your love would set me free

All of my life, I always wanted someone
Just like you
All of my days, I always needed someone to hold me
Just like you

When I look at you, there's love all around
Nothing can touch me but this love that I've found
All of my sorrows just go away
You're here beside me, and I know you're gonna stay

All of my life, I always wanted someone
Just like you
All of my days, I always needed someone to hold me
Just like you
